# Sandesh Sharma

**web developer beginner**

As a first-year computer science student, I've built a solid foundation in web development with proficiency in HTML, CSS, and JavaScript. I have hands-on experience with additional tools such as Locomotive Scroll, GSAP, and Canvas, allowing me to create dynamic, responsive, and animated websites. Eager to grow as a web developer, I'm passionate about bringing interactive web designs to life and am looking forward to contributing my skills to exciting projects
